

Local Government

How aware or informed are residents about the activities of Brockham Parish Council?

Just over half of respondents feel aware and informed about the activities of the Parish Council, but over 49% do not feel that they know enough about their activities.

Do residents agree that representatives in local and national government are aware of local issues and feelings?

Not surprisingly the further away from the community, representatives are the less people feel that they are in touch with their needs and concerns. Surrey County Council are it seems not at all aware of local issues - only 40% of the responses to date felt that the County Council were 'in touch'.
