

Brockham Parish Plan My Village 2015

Retail Services

On average, how often do residents use the retail services in the Parish?
Naturally use of retail services varies from service to service, but it seems the Mobile Library gets used very little. There is an interesting comparison between the Village Club and the two public houses which shows that both the Royal Oak and the Duke's Head have a strong customer base.

How do residents rate the local postal service?

With one of the finest postal services in the world it's no surprise that we are, in the main, happy with the Post Office. But as the survey shows, there is still plenty of room for improvement.
